Re: U.S. Department of Veterans Affairs
VA Greater Los Angeles Health Care System
Los Angeles, California
Case No. SF-CA-18-0145

Dear Messrs. Tcheumani and Johnson:

The captioned unfair labor practice (ULP) charge was filed with the San Francisco Region on December 20, 2017, and was administratively transferred to the Dallas Region for investigation. The Dallas Region was later provided information that the charged party was actively seeking a determination that the issues presented in this case are excluded from the collective bargaining process under Title 38 Section 7422(b). Because the 7422(b) determination will impact on the processing of the ULP charge, it best effectuates the purposes and policies of the Federal Service Labor-Management Relations Statute to defer processing the ULP charge until that process has been completed.

Please ensure that the Dallas Region is advised as to what has taken place with the processing of the 7422(b) determination. The Dallas Region will re-evaluate the decision to defer at a later date.

Sincerely,

Charlotte A. Dye
Regional Director
